

NotebookLM

The Sovereign, Source-Grounded AI Research & Synthesizing Assistant

<https://notebooklm.google/>

Introduction to NotebookLM

NotebookLM is a **free of charge** generative AI tool that is grounded only in the information you provide.

Upload your course materials and generate summaries, lesson plans, study guides and quizzes — all with in-line citations to ensure accuracy.

Your personal AI-powered research and thinking partner

For Teaching

1. **Enhance research**
 - a. Accelerate literature reviews, summarize long documents, refine research ideas, and get feedback on writing.
2. **Streamline curriculum development**
 - a. Generate tailored lesson plans, discussion questions, assessments and in-class activities based on your teaching materials and education standards.
3. **Make learning more engaging and accessible**
 - a. Make complex topics accessible and create differentiated resources with audio summaries, visual explainer videos, study guides, and more.

Your personal AI-powered research and thinking partner

For Learning

1. **Accelerate learning**
 - a. Upload your class notes, lecture slides, and assigned readings to instantly generate study guides, flashcards, practice quizzes, and get step-by-step explanations with citations.
2. **Learn your way**
 - a. Transform dense readings and complex notes into formats that fit how you learn best, whether that's by listening to a verbal summary, a narrated presentation or seeing them mapped out visually.
3. **Research and write more effectively**
 - a. Find connections between readings, pull key quotes, and organize your ideas. Get personalized suggestions on essay drafts, check the strength of your arguments and speed up citations.

Your personal AI-powered research and thinking partner

For Working

1. **Support training and policy development**
 - a. Transform handbooks and codes of conduct into a help center with Q&A and multimedia resources, support training and professional development, and brainstorm new policies and initiatives.
2. **Streamline administrative tasks**
 - a. Quickly summarize complex documents, analyze data from surveys, and draft communications and project proposals faster.
3. **Enhance grant writing and reporting**
 - a. Research and identify grant opportunities, speed up grant writing with personalized drafts, and generate reports on project progress and outcomes.

Purpose-built for teaching and learning

Private and secure

Your data is not human-reviewed or used to train AI models.

1. **Secure by default**
 - a. Has the same enterprise-grade protection as other Core Services
2. **Private by design**
 - a. Your data is not reviewed or used to train AI models
3. **Supports compliance**
 - a. Supports compliance with a number of industry regulations, including COPPA, FERPA, and more

Purpose-built for teaching and learning

Grounded in learning science

NotebookLM is powered by LearnLM, our family of models and capabilities fine-tuned for learning and rooted in learning science principles.

1. Built for learning

- a. By using learning science principles – like inspiring active learning and stimulating curiosity – as the backbone of how we build NotebookLM, we’re ensuring that it is as helpful as it can be for learners.

2. Partnering with educators

- a. Partnering with experts at institutions like Columbia Teachers College, Arizona State University, and NYU Tisch to test and improve LearnLM.

Purpose-built for teaching and learning

Free of charge

NotebookLM is free of charge, making it more accessible to educators and students around the world.

1. AI for everyone

- a. Providing cutting-edge AI capabilities at no cost helps ensure it benefits as many educators and students as possible

2. Promoting AI literacy

- a. Removing the cost barrier empowers educators and students to try NotebookLM and develop essential AI literacy skills for an AI-driven future.

Purpose-built for teaching and learning

Responsible experience for students

NotebookLM provides students under 18 with a distinct product experience with extra guardrails and grounds its responses on information you provide.

1. Fine-tuned guardrails

- a. Students under 18 get a distinct product experience with extra guardrails.
- b. NotebookLM identifies content that may be inappropriate for younger users and triggers policies to help prevent inappropriate responses.

2. Grounded and reliable

- a. For accurate and trustworthy responses, NotebookLM strictly limits its knowledge base to only user-uploaded materials, and features in-line citations.

How does NotebookLM work?

Upload your sources

Create a notebook and upload lecture notes, academic papers, education standards and course readings

Instant overviews

You get an instant overview and automatically-generated summary

Create content

NotebookLM answers your questions and creates multimedia content using only your sources

Analyze sources

NotebookLM automatically analyzes your sources

Ask questions

You ask questions or request new content

Explore what you can do with NotebookLM

- Turn your content into podcasts with audio overviews
- Create explainer videos from your content
- Create infographics and slide decks
- Make connections between sources with mind maps
- Get answers with citations
- Test your knowledge with quizzes and flashcards
- Create instant study guides
- Go beyond quick answers with guided learning

The screenshot displays the NotebookLM Infographic Demo interface. On the left, a sidebar titled "แหล่งข้อมูล" (Sources) lists several documents: "Fast Research เกี่ยวกับ" (Fast Research about), "NotebookLM Changed Completely: Here's What Matters (in 2023) - YouTube", "Dive deeper into VO 2023 with NotebookLM - Google Blog", "NotebookLM Review 2023: How it Works, How to Use & Edit - PDFNub PDF Editor", and "แหล่งข้อมูล 7 แหล่ง" (7 sources). The main area shows a chat interface with a prompt: "Please do research for 'Explore what you can do with NotebookLM' and create an infographic for me please". Below the prompt, a generated infographic titled "Fast Research" is displayed, detailing features and capabilities of NotebookLM. On the right, a panel titled "สตูดิโอ" (Studio) offers various content creation options, including "ภาพรวมแบบเสียง" (Audio Overview), "การ์ด" (Cards), "ภาพรวมแบบวิดีโอ" (Video Overview), "แบบสำรวจแบบเสียง" (Audio Survey), "ตาราง" (Table), "แหล่งข้อมูล" (Sources), "แบบทดสอบ" (Quiz), "บันทึกการฝึก" (Practice Log), and "เสียงข้อมูล" (Data Sound). At the bottom, a footer mentions "แหล่งข้อมูลที่เป็นที่ไว้วางใจมากที่สุด" (Most trusted sources) and lists "สื่อ: 'แหล่งข้อมูล' ด้านหนังสือ, PDF, เว็บไซต์, วิดีโอ, หรือเสียง หรือภาพ" (Media: 'Sources' side books, PDF, website, video, or audio or image) and "ได้จาก Google โน้ตบุ๊ก" (From Google Notebook).

NotebookLM 2026: ปฏิวัติการวิจัยด้วย AI ที่แม่นยำและสร้างสรรค์

NotebookLM คือตัวช่วยวิจัยอัจฉริยะจาก Google ที่ใช้ระบบ "Source-grounding" เพื่อตรวจสอบข้อมูลเฉพาะจากเอกสารที่ผู้ใช้อัปโหลด ช่วยให้การทำงานมีความแม่นยำสูง และลดการหลอกลวงของ AI (Hallucinations) โดยในปี 2026 ได้มีการเปิดตัวเครื่องมือใน Studio Panel และขยายการรองรับภาษาให้ครอบคลุมทั่วโลก

Tier Comparison

Parameter	Free Tier	Google AI Plus	Enterprise Edition
Max Notebooks	100	500	Custom Enterprise Limit
Sources per Notebook	50 sources	100 sources	300+ sources
Query Limits	50 per day	100 per day	500+ per day
Compliance	Standard Privacy	Standard Privacy	VPC-SC, CMEK, IAM Controls
